

2 KOMPONENTEN MASCHINENBAU

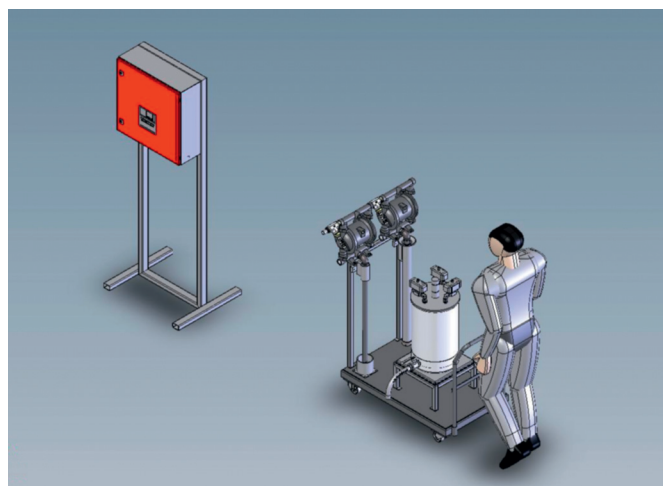

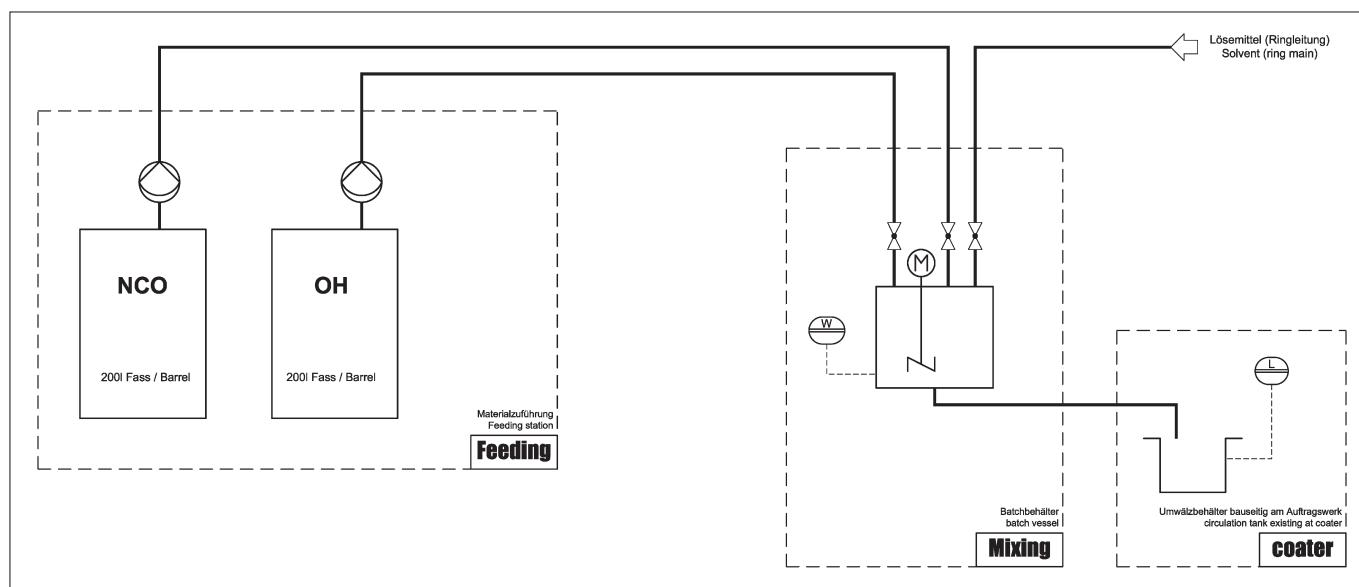

METERING AND MIXING SYSTEMS

PCM EASY BATCH

2c- metering system for the processing of solvent based
PUR adhesive for flexible packaging

Machine for processing solvent based PUR for flexible packaging adhesives. It works in batch mode and automatically creates the mixtures according to predefined processing parameters. Transport cart and batch container are manufactured of stainless steel.

Mobile System has been developed specifically for small laminating orders. The conveyor pumps are connected with the transport cart and will be bracket with blocked funds after use. Results of this are easy movement and low storage requirements.

Technical data:

Viscosity:	low viscos
Output:	up to 4 l/min (depending on the viscosity and mixing ratio)
Mixing ratio:	gravimetric metering with pneumatic driven diaphragma pumps

Consumption/Connections:

Pneumatic::	R1/4", 6bar (Consumption: low)
Weight:	appr. 120 kg
Dimensions::	appr. [1.200 x 600 x 1.200] mm (transport car) appr. [1.900 x 720 x 600] mm (electrical cabinet)

Subject to alteration!
